Subject: RE: Leviathan Mine - 2017 Annual Road Operating Plan

Ken,

We are planning on applying dust suppressant in front of the residences this season, and currently plan to apply a second application later in field season. Our current schedule would be for early June and September, but this would be based on road condition and the second application would be only if necessary.

Thanks,

Mike Johnson, PE

Subject: RE: Leviathan Mine - 2017 Annual Road Operating Plan

The document provides all relevant information regarding use of the Leviathan Mine road by

Atlantic Richfield and their contractors to support ongoing removal action and remedial investigation/feasibility study activities at the Site. It was unclear to me whether dust abatement activities are scheduled this spring as truck count was provided in the table, but the narrative did not necessarily support this activity. I know that if it does occur you will inform the local residents of this work well in advance (as you always do!!), but please let me know. The Forest Service accepts this plan as satisfying the requirement of the road use permit and hopes that 2017 is an unremarkable year as far as surprises and unplanned activities goes.

Subject: Leviathan Mine - 2017 Annual Road Operating Plan

Ken,

On behalf of Atlantic Richfield, please find attached to this email an electronic copy of the 2017 Annual Road Operating Plan. The Annual Road Operating Plan was prepared to support ongoing U.S. Environmental Protection Agency (U.S. EPA) required Removal Action (RA) and Remedial Investigation (RI) activities at the Leviathan Mine Site (site) located in Alpine County, California. The Annual Road Operating Plan has been prepared in accordance with the U.S. Department of Agriculture (USDA) Forest Service Road Use Permit which was re-issued to Atlantic Richfield by the Forest Service on July 16, 2013. A hard copy of this plan was sent to your office and should be arriving soon.

If you have any questions regarding this submittal, please feel free to contact me at the phone number below or Tony Brown at (657) 529-4537.

Thanks,

Mike Johnson, PE
